

Third Places Homework Assignment

(Example from KU's J301 Research and Writing class.)

Your assignment is to visit one of the third places you came up with during lab. It must be a place you've never visited. Once there, spend some time observing (use the "Working in Civic Places" hand-out to guide you). After spending some time there, talk to five people within that third place. You'll need to take pictures of them, get their contact information and get some quotes from them.

Using the information you gleaned from your visit and the people you talked to while you were there, come up with a story idea from that third place.

You will need to provide your lab instructor with: the photos of the people you interviewed, their contact information, the quotes they gave you and the story idea you developed as a result of your interviews.

Assignment deadline:

This assignment is due on _____.

Points:

This assignment is worth ____ points.

Hand-outs:

- **Working in Civic Places:** Tips for entering a third place.
- **Tips for Managing Interviews:** Tips for getting the most from your interviews
